OUR PARTNERS & CERTIFICATIONS

# WHO WE ARE

Arana Security was founded in 2013 and it's a security solution integrator aimed at improving safety in and around your organization. With our continuous development of state-of-the-art technologies and growing partnerships, we remain up-to-date with products and solutions that provide companies with the highest quality in the security sector.

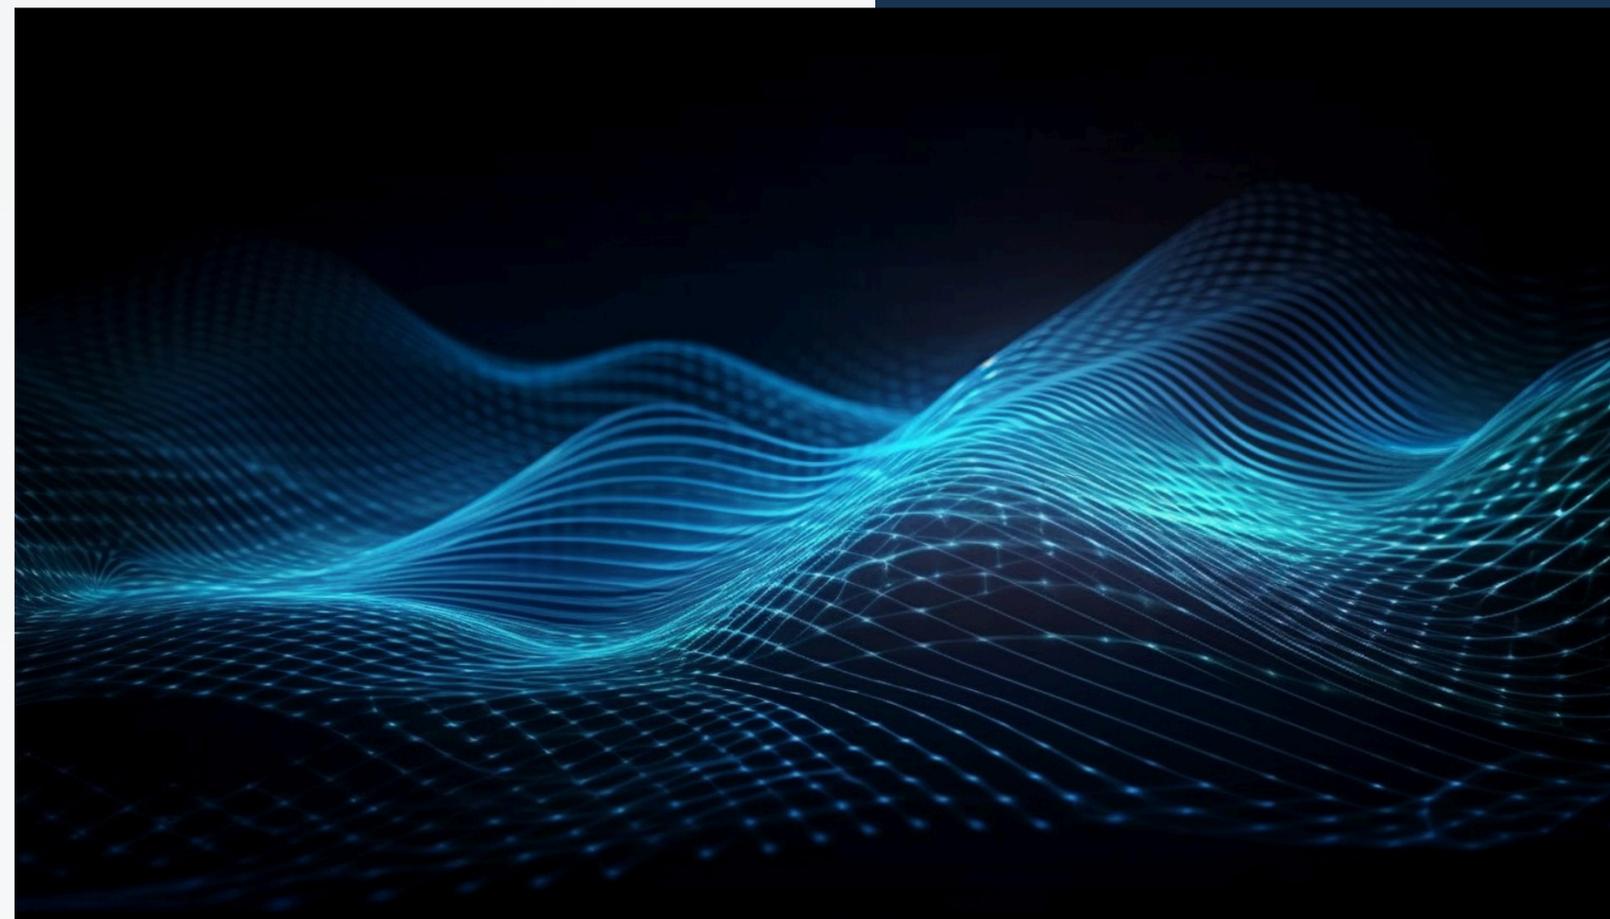

# WHY ARANA'S BIOWAVE ACCESS CONTROL?

- **Offline Mode:** BioWave ensures uninterrupted access control even during internet outages.
- **Device Agnostic:** The system integrates seamlessly with a wide range of access control devices from various manufacturers, providing flexibility in hardware choices.
- **Granular Access Rules:** Effortlessly define and manage access permissions for specific individuals, groups, or timeframes.
- **Mobile Access Management:** The BioWave mobile app empowers employees to submit access requests directly through their phones.

# OUR PRODUCT

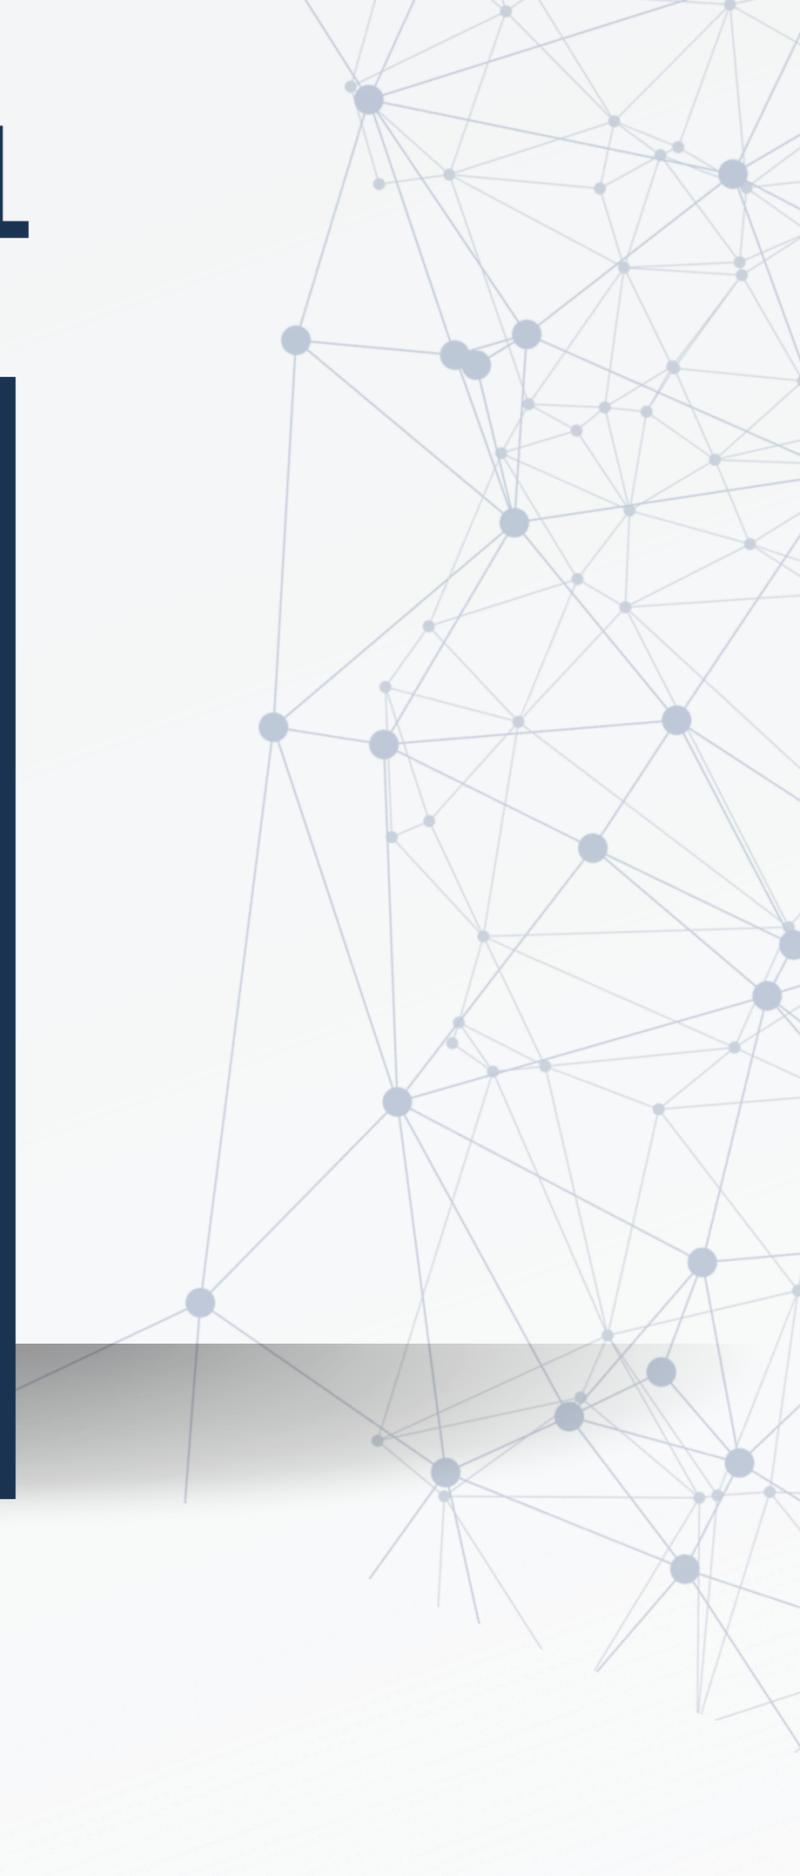

# BIOWAVE ACCESS CONTROL

BioWave by Arana Security elevates physical access control. It offers robust security and effortless management via a central cloud platform. Seamless integration ensures a smooth transition for existing systems.

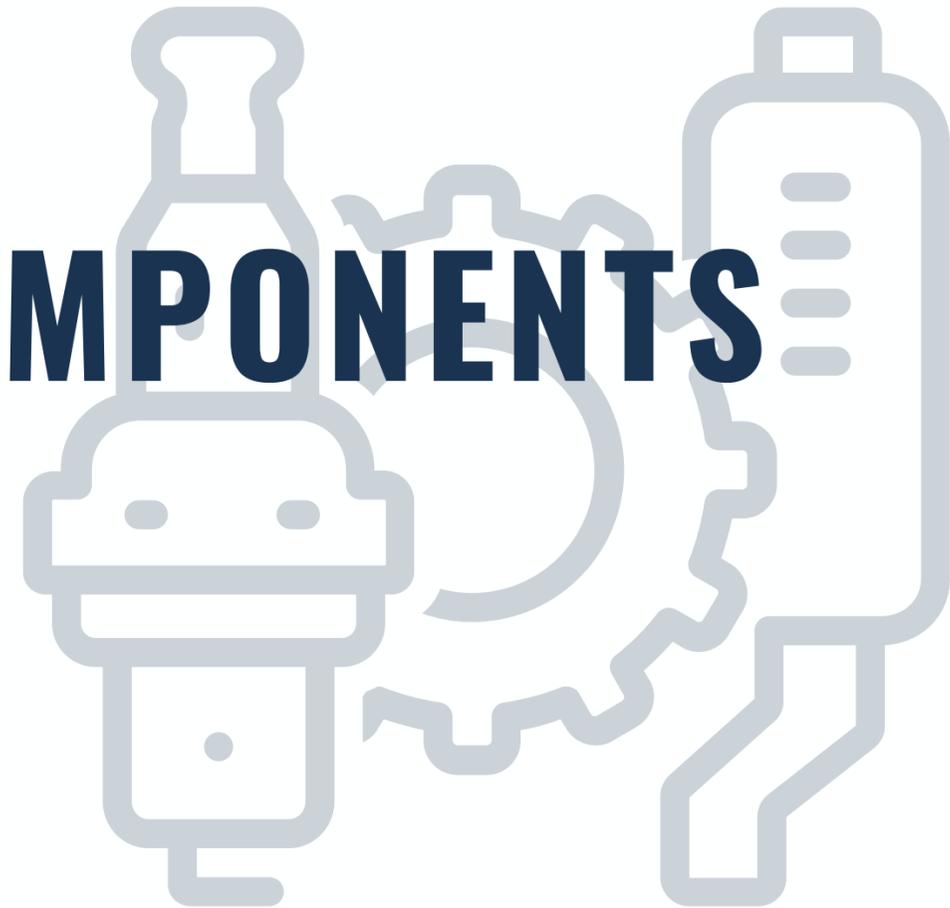

## BioWave integrates:

- Web Portal
- Mobile
- App various devices

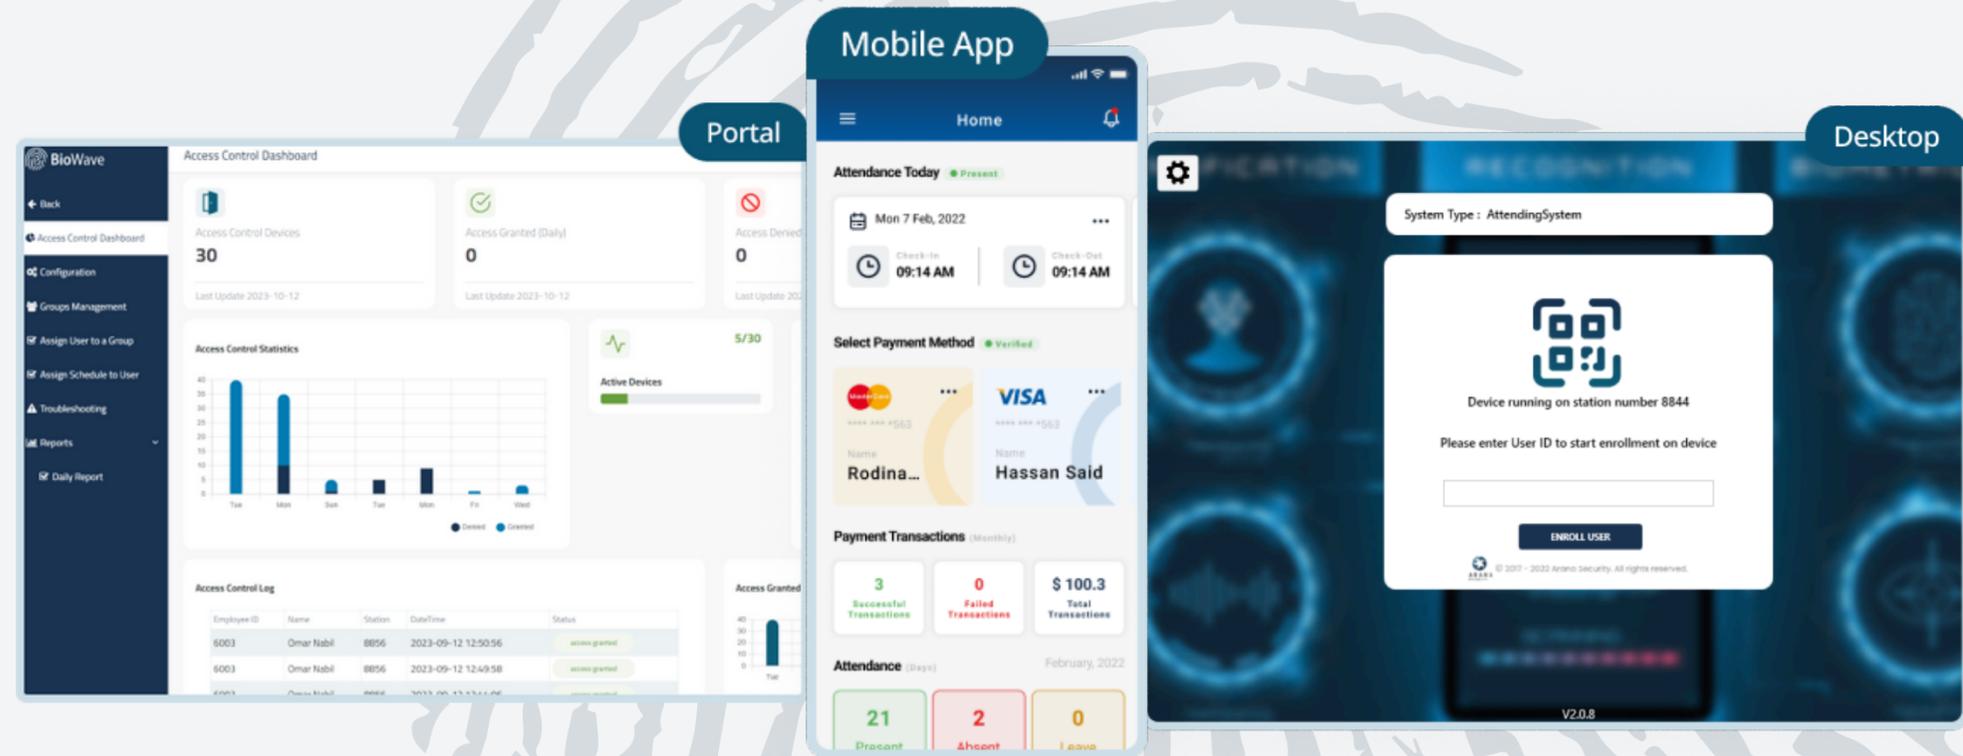

That Guarantees a complete attendance management solution.

# OUR PRODUCT COMPONENTS

- **Web Portal:** BioWave offers a cloud-based web portal for administrators to effortlessly oversee and manage access rights across various locations.
- **Mobile App:** Enables employees to request access, view access history, and manage their profiles.
- **Devices:** BioWave integrates with a range of access control devices, including facial recognition terminals, fingerprint scanners, and card readers, offering employees a convenient, full hand scanning and secure way to gain access.

# **BENEFITS & SOLUTIONS**

The image features a magnifying glass with a silver handle and frame, positioned over a fingerprint. The fingerprint is rendered in a light gray, semi-transparent style. The magnifying glass is angled, with its lens centered on the fingerprint. The background is a light gray gradient with a diagonal line running from the top left to the bottom right. The text 'BENEFITS & SOLUTIONS' is written in a bold, dark blue, sans-serif font across the center of the image.

# Seamless Integration, Effortless Access

BioWave offers a centralized platform for managing access control across all your locations.

Empowers you to centrally manage and authenticate users across geographically dispersed locations.

Generate detailed reports on access events, tracking user entry/exit patterns and identifying potential security concerns.

Configurable User Groups, creating a user groups and assign specific access permissions to cater to diverse security requirements.

user-friendly web portal simplifies access control management for administrators.

Flexible Access Permissions, Defining access levels for individuals, groups, or specific timeframes for enhanced security.

Effortlessly integrate various access control devices into the BioWave system.

Utilizes access control devices with clear buttons for actions like entry & Exist.

## Mobile Application:

The BioWave mobile application complements the BioWave contactless biometric security system, offering a range of benefits that enhance user experience, simplify system management, and provide greater business control.

- **Mobile Management:** View access history, manage personal profiles, and update settings directly from your phone.
- **Increased Convenience:** Enjoy the flexibility of using your phone for secure payments within integrated systems.
- **Real-time Notifications:** Receive instant alerts on your phone regarding access attempts, security updates, or system maintenance.
- **Remote Access Management:** Administrators can add, modify, or delete user profiles and access permissions directly through the mobile app, streamlining user management.
- **Real-time Monitoring:** Gain instant insights into access activity, monitor user movements, and identify potential security concerns, all from your phone.
- **Push Notifications:** Send real-time security alerts and critical updates directly to users' phones, ensuring everyone is informed of important events.

(Arabic & English)**

# CASE STUDIES

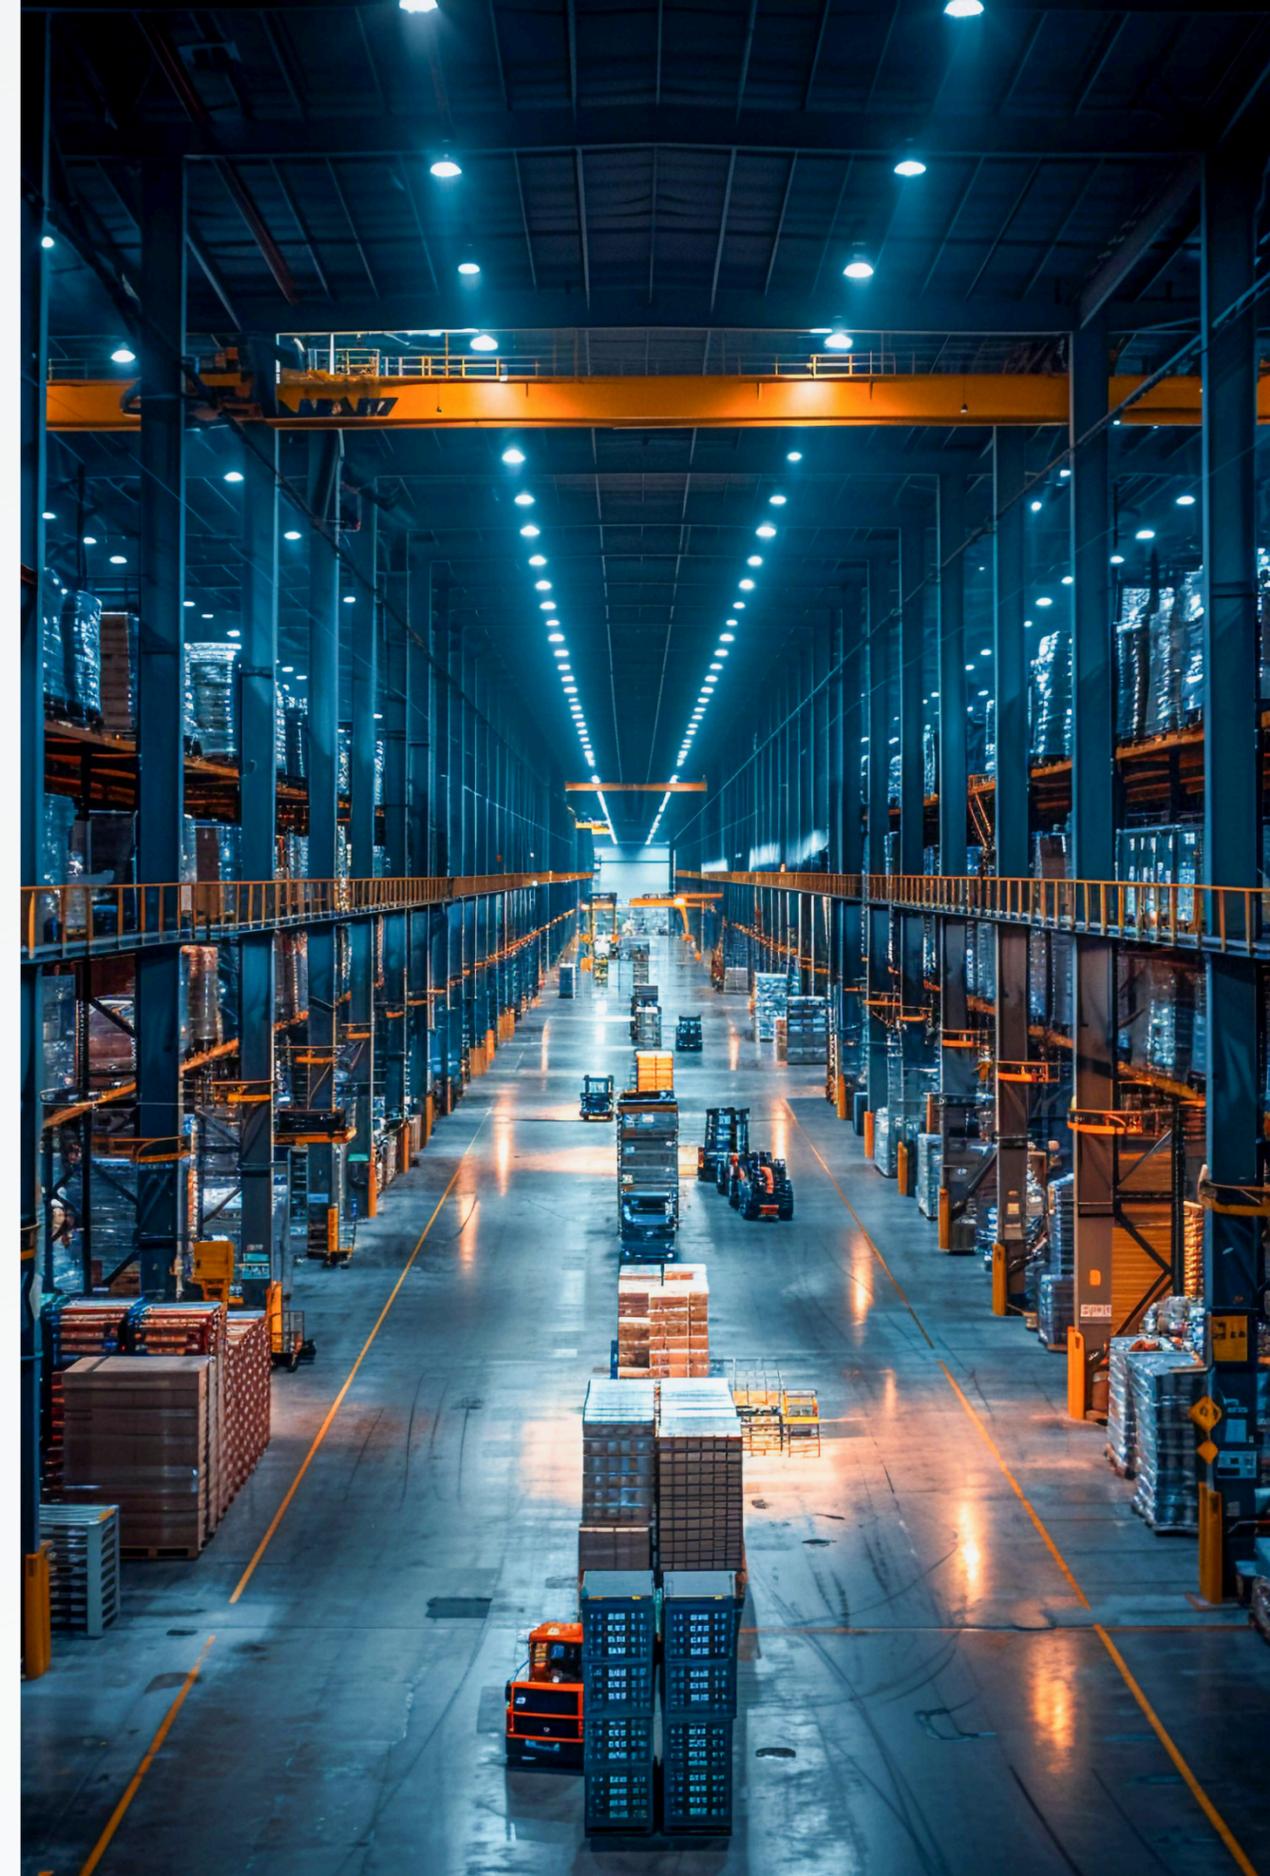

## Warehouse Multilocation - Case Study

Know about our work stories on the ground by BioWave Access Control

### Warehouse development in 2020-2021

- 144,000 sq ft warehouse and logistics unit.
- Access was controlled using biometric readers for the staff and contractors were provided with cards.
- The client can manage the level of access and users via a portal.
- 24 biometric access control readers.
- 2x biometric time and attendance (BioWave Attendance).
- In 2021, a new warehouse was built and an additional 14 biometric readers were installed and connected to the same portal as the previous warehouse, allowing the client to manage both warehouse access control from the same portal.
- In addition, a time-attendance module was added to the system.

## POC Japan - Case Study

Know about our work stories on the ground by BioWave Access Control

### Field Studies with payment solutions

- We're currently undergoing a trial where we have installed our Biometric Contactless Payment solution, BioWave Pay in a Cafe in Tokyo, Japan.
- If the project succeeds, they will roll out our solution in food courts across several Malls in Japan.

# Our Partners & Certifications

Thanks to our partners' support and collaboration, they help us to enhance and improve Biowave's touchless solution.
