

BioWave

ACCESS CONTROL

About Us

BioWave is an advanced centralised management platform developed by Arana Security, a leading integrator of innovative and user-friendly technologies.

BioWave offers a comprehensive suite of solutions aimed at streamlining your business operations. Our systems are versatile and scalable, integrating seamlessly with your existing infrastructure.

What is BioWave Access Control

BioWave Access Control is a cutting-edge security solution that safeguards your premises using biometric authentication and smart access technology.

Tailored for businesses of any scale, it provides an efficient method for controlling entry points, tracking access activity, and implementing security protocols.

Benefits of BioWave Access Control

- ✓ Protect premises with advanced access control to minimise unauthorised access.
- ✓ Authenticate users globally to streamline security management.
- ✓ Gain visibility into access activities for swift responses to breaches.
- ✓ Generate reports to analyse trends and improve security.
- ✓ Simplify visitor check-ins for controlled access to sensitive areas.
- ✓ Log events automatically for easier audits and compliance.
- ✓ Manage data easily through an intuitive web portal.
- ✓ Reduce costs by minimising physical keys and manual security.

Compatible Manufacturers
