

BioWave

E-TICKETING

About Us

BioWave is an advanced centralised management platform developed by Arana Security, a leading integrator of innovative and user-friendly technologies.

BioWave offers a comprehensive suite of solutions aimed at streamlining your business operations. Our systems are versatile and scalable, integrating seamlessly with your existing infrastructure.

What is BioWave E-Ticketing

BioWave E-Ticketing is a secure, streamlined solution that enables businesses to issue, validate, and manage digital tickets using biometric authentication. The system enhances the ticketing experience by ensuring safe, tamper-proof tickets and simplifying customer entry through biometric verification.

BioWave E-Ticketing improves operational efficiency while providing customers with a seamless, contactless experience perfect for events, transport systems, or high-traffic environments.

Benefits of BioWave E-Ticketing

- ✓ Quick and secure biometric checks simplify entry.
- ✓ Digital tickets are stored securely and linked to the user's biometric credentials.
- ✓ Biometric validation and multi-factor authentication prevent unauthorised access.
- ✓ Real-time ticket validation reduces wait times, streamlining the check-in process.
- ✓ Providing a secure, seamless experience builds trust and loyalty among users.
- ✓ Compliant with health and safety protocols with touchless verification and reduced handling of paper tickets.
- ✓ Ticket resale or transfers are controlled through biometric verification.

Compatible Manufacturers

Features

Biometric authentication for secure entry

Integration with existing ticketing systems

Analytics and event tracking

Digital ticketing platform for easy booking and storage

Real-time entry validation

Detailed access reports

Multi-language support for inclusive user engagement

Centralised user management for profiles, history, and preferences

Application Components

Devices

These include biometric scanners, NFC-enabled devices, and mobile applications for seamless entry.

Mobile App

Customers can use the BioWave App to store their tickets and gain entry through biometric authentication. The BioWave app also allows event managers to remotely track ticket sales and real-time entry.

Web Portal

The administrative BioWave portal gives event organisers complete control over ticket management. It allows them to oversee ticket sales, attendee registrations, and real-time entry tracking to ensure smooth event operations.
