1. FULL END-TO-END BIOMETRIC INTEGRATOR

2. BIOMETRIC PAYMENT

3. BIOMETRIC ACCESS CONTROL, TURNSTILE & GATES

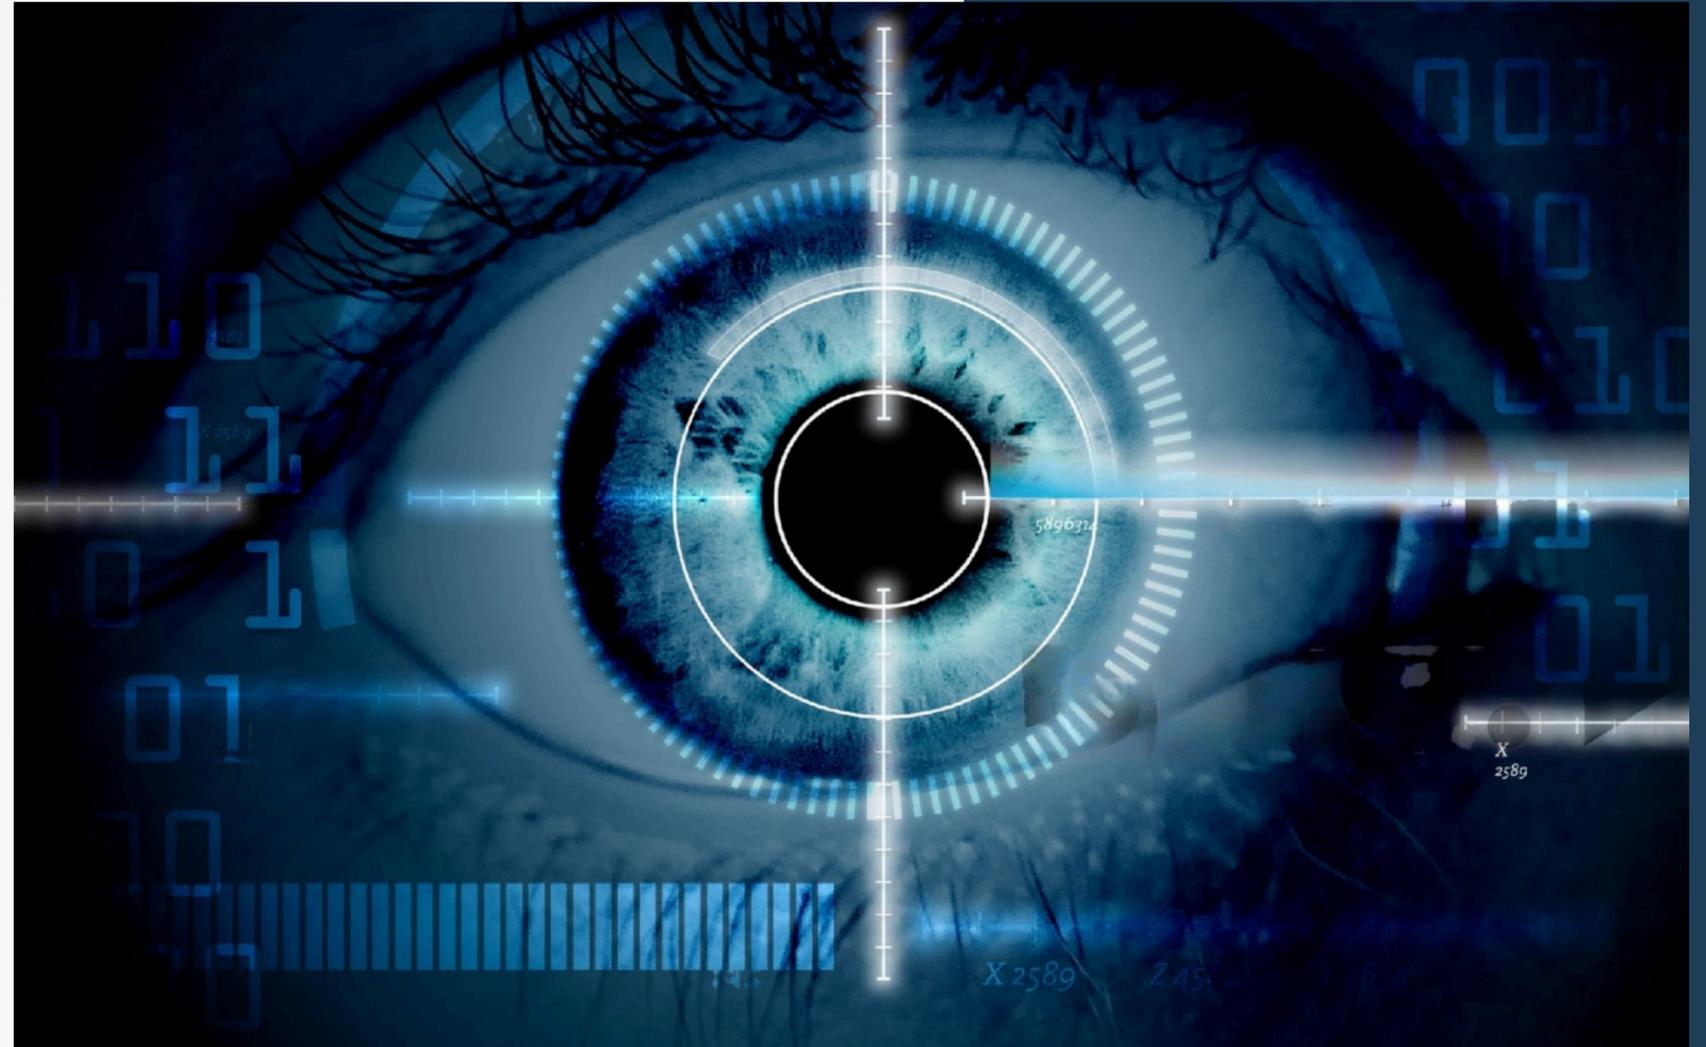

4. BIOMETRIC ID

5. APP DEVELOPMENT

6. CCTV

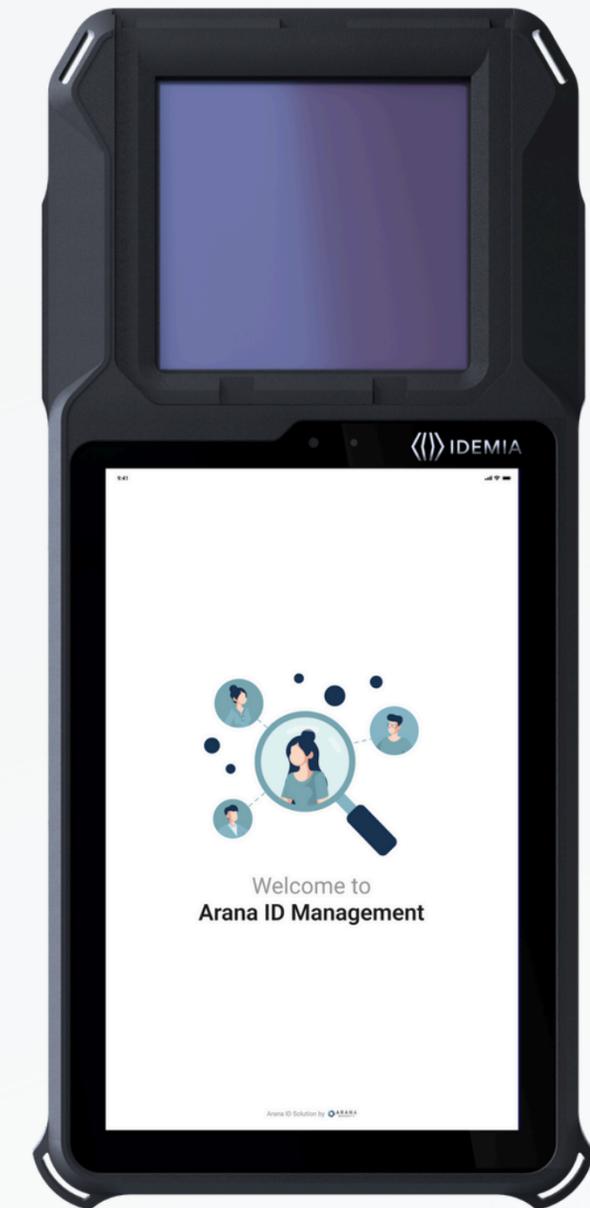

OUR PRODUCT

ID SCREEN 60

ID Screen 60 is a cutting-edge biometric tablet featuring an advanced fingerprint sensor that guarantees swift and accurate captures. Despite its durable construction, it remains lightweight and portable, making it ideal for challenging environments. This device is perfect for applications such as mass enrollment, border checks, and identity verifications.

FEATURES

Liveness Face detection

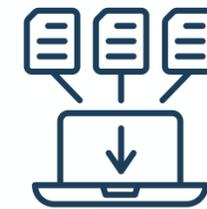

Liveness OCR (Passport only)

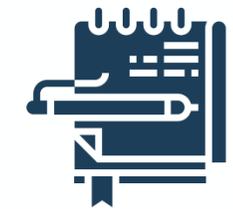

Matching portrait with face in the captured document

Fingerprint capturing (Also recapturing is supported)

More info collection such as (Email, phone, address ECT.)

Saving the record

User card personalization (Optional)

A conceptual graphic featuring a magnifying glass with a grey handle and frame, positioned over a fingerprint. The fingerprint under the lens is highly detailed and clear, while a second, larger but faded fingerprint is visible in the background. The entire scene is set against a light grey, diamond-shaped background that tapers towards the top corners.

BENEFITS & SOLUTIONS

Outstanding performance

The ID Screen 60 ensures dependable data capture with its larger fingerprint sensor, enabling rapid and precise print acquisition. Equipped with a high-quality rear camera and dual LED lights, it provides uniform lighting for portraits. It prevents specular reflection on the MRZ when capturing ID documents with the camera.

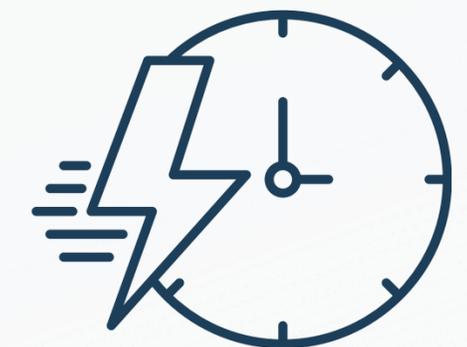

Unequaled ergonomics

Dependable data capture with its larger fingerprint sensor, enabling rapid and precise print acquisition. Equipped with a high-quality rear camera and dual LED lights, it provides uniform lighting for portraits. It prevents specular reflection on the MRZ when capturing ID documents with the camera.

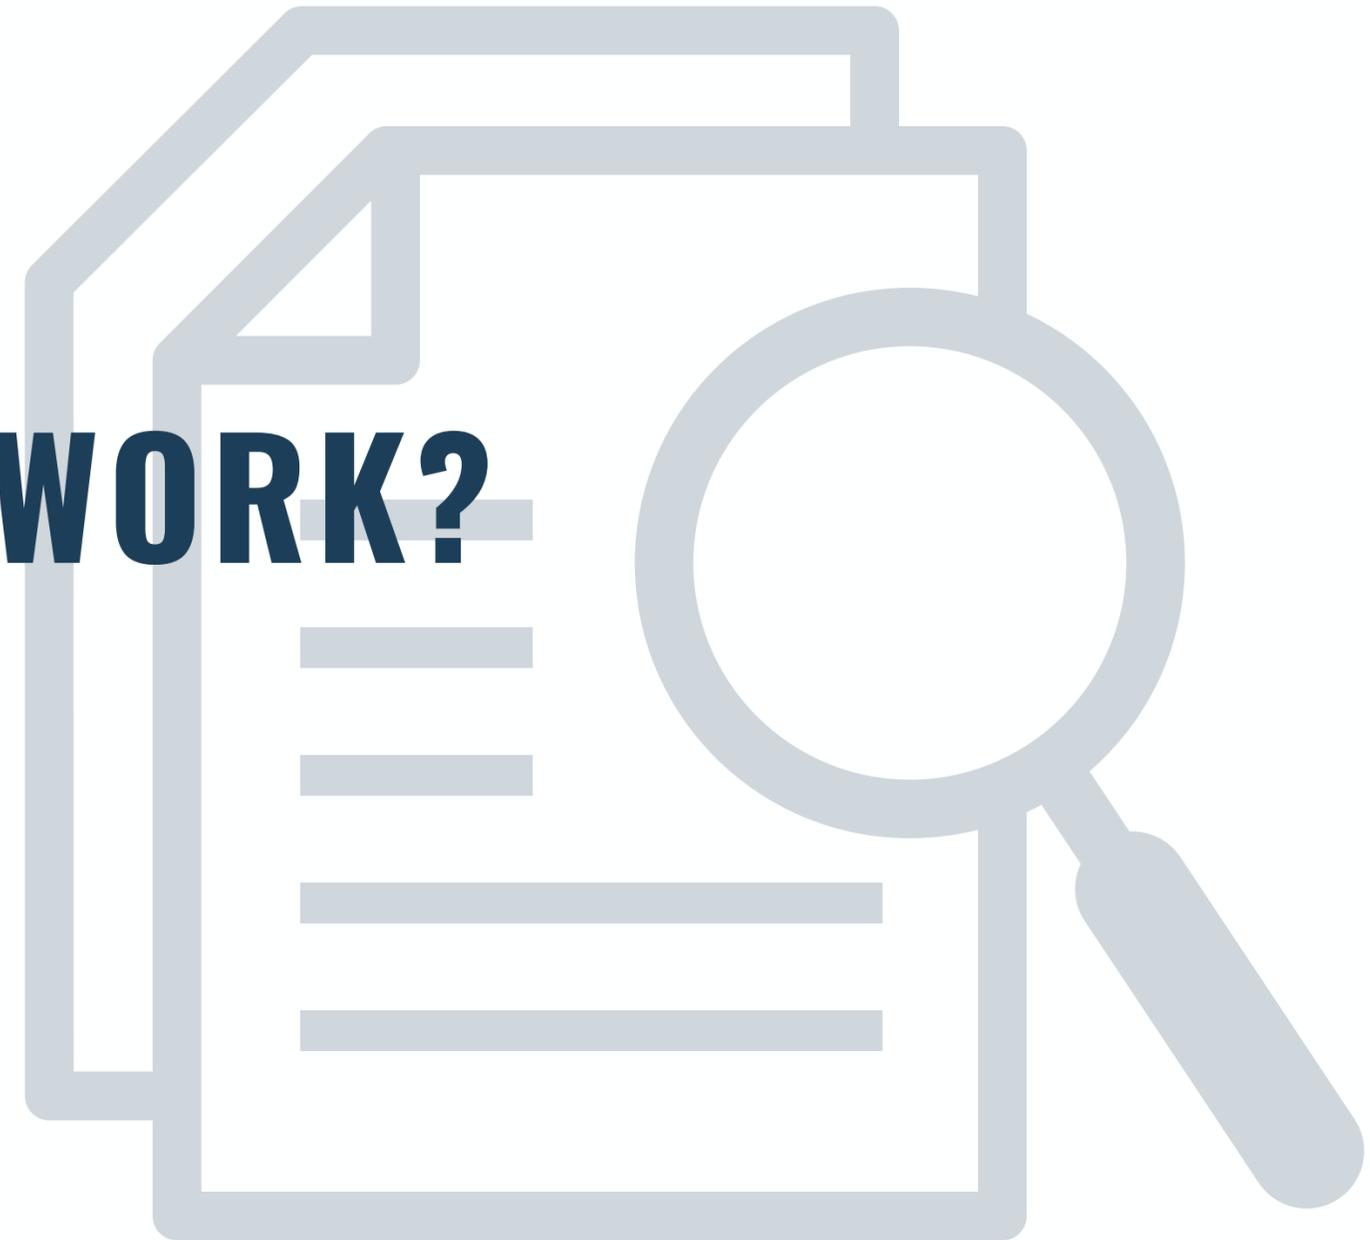

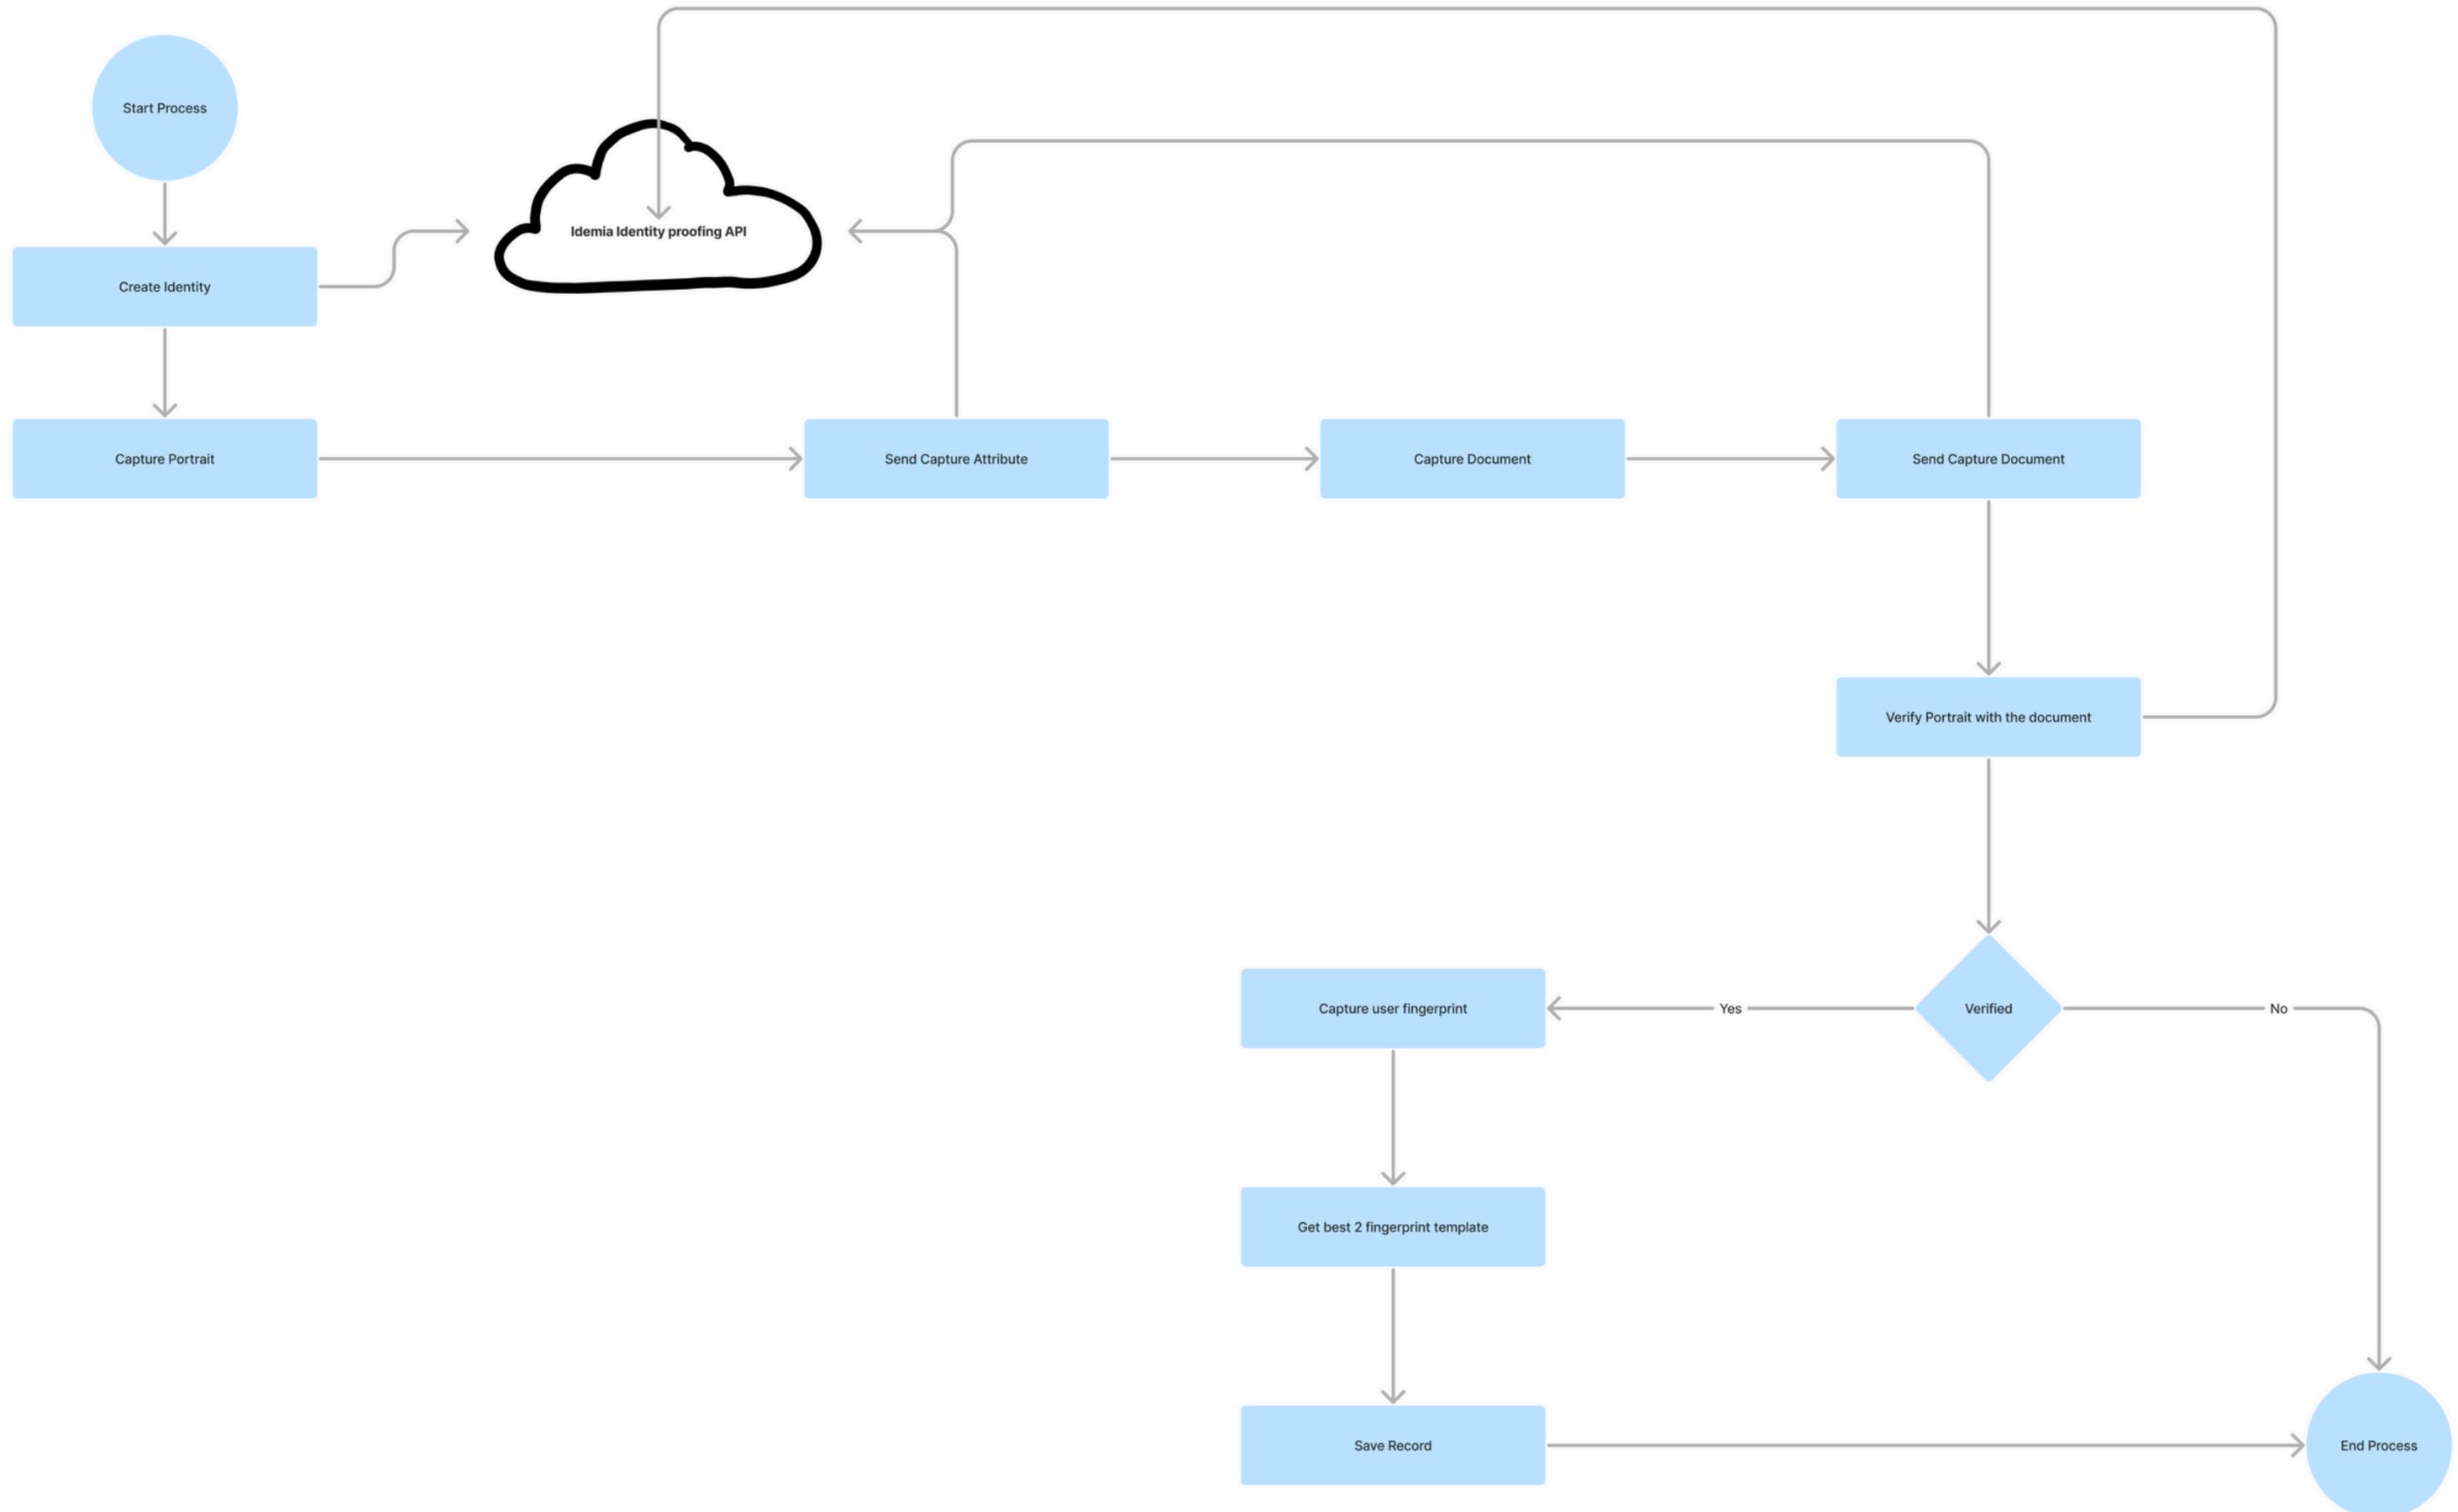

Adapted to all environments

A durable tablet designed for use in any environment. With IP65 ingress protection, it withstands challenging operating conditions. It features a powerful 12,000mAh battery, and with a speed charger, the battery can be charged from 10% to 80% in under 2 hours.

HOW DOES IT WORK?

Warehouse Multilocation - Case Study

Know about our work stories on the ground by BioWave Access Control

Warehouse development in 2020-2021

- 144,000 sq ft warehouse and logistics unit.
- Access was controlled using biometric readers for the staff and contractors were provided with cards.
- The client can manage the level of access and users via a portal.
- 24 biometric access control readers.
- 2x biometric time and attendance (BioWave Attendance).
- In 2021, a new warehouse was built and an additional 14 biometric readers were installed and connected to the same portal as the previous warehouse, allowing the client to manage both warehouse access control from the same portal.
- In addition, a time-attendance module was added to the system.

Our Partners & Certifications

Thanks to our partners' support and collaboration, they help us to enhance and improve Biowave's touchless solution.

**SEAMLESS INTEGRATION,
EFFORTLESS ACCESS**

THANK YOU
