OUR SOLUTIONS

At Arana Security, we understand data centres' critical role in modern infrastructure. From safeguarding sensitive data to regulating access for authorised personnel, our customisable security solutions are designed to mitigate risks, ensure operational continuity, and provide robust protection. They address the evolving security challenges of data centres while maintaining seamless operations.

KEY CHALLENGES

✖ Preventing unauthorised access to critical servers and sensitive data.

✖ Managing and monitoring large volumes of staff, contractors, and visitors.

✖ Ensuring 24/7 surveillance and rapid incident response.

✖ Complying with strict industry regulations and security standards.

ACCESS CONTROL

MOBILE ACCESS

Enable authorised personnel to use their mobile devices for secure entry, eliminating the need for physical key cards.

GATES AND TURNSTILES

Secure entry and exit points using robust gates and turnstiles, ensuring only authorised personnel gain access to sensitive areas, and integrate with access control solutions.

BIOMETRIC ACCESS CONTROL

Secure your data centre with advanced biometric access control, whether you're building a new facility or upgrading an existing one. Implement fingerprint or facial recognition technology, eliminating the risks of stolen or shared credentials.

TIME ATTENDANCE

With BioWave Time Attendance you can track work hours, manage schedules, and simplify payroll, ensuring a more efficient workforce and minimising manual errors.

CCTV SURVEILLANCE

Implement high-definition CCTV systems to monitor premises in real-time. From deterrence to incident response, our CCTV solutions ensure comprehensive coverage.

REMOTE ENROLMENT

Allow authorised guests and employees to register and verify their identities remotely using a simple and secure system, providing an efficient alternative to in-person enrolment.
