# OUR SOLUTIONS

At Arana Security, we understand the evolving security needs of educational institutions. Our tailored solutions ensure a safe and productive environment for students, staff, and visitors. We integrate advanced technology to provide innovative systems that enhance security and operational efficiency. Safeguard your institution with solutions designed specifically for the education sector.

## KEY CHALLENGES

- ✗ Ensuring the safety of students, staff, and visitors on campus.
- ✗ Managing access to restricted areas like labs, admin offices, and server rooms.
- ✗ Effectively managing large groups of students and staff during peak times.
- ✗ Simplifying time attendance tracking for students and employees.

## ACCESS CONTROL

### MOBILE ACCESS

Provide secure access for students and staff in higher education institutions using smartphone-based credentials. This method integrates seamlessly with attendance and other access solutions

### GATES AND TURNSTILES

Our advanced gates and turnstiles help manage entrance into high-traffic areas, prevent unauthorized entry, and improve campus security.

### CARD ACCESS

Smart card solutions efficiently access students and staff. This traditional method integrates seamlessly with attendance and other access solutions.

# BIOMETRIC ACCESS CONTROL

Biometric access enhances security for sensitive areas such as laboratories, faculty offices, and IT rooms. It ensures that only authorised individuals can enter, with non-repudiable access logs for accountability.

## TIME ATTENDANCE

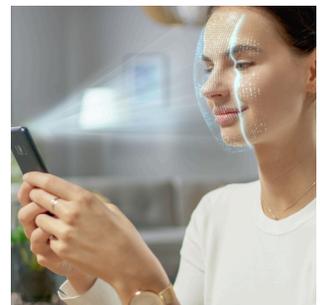

This centralised platform simplifies attendance tracking for students and employees. It records attendance in real-time, automates scheduling, and generates detailed reports.

## CCTV SURVEILLANCE

Implement cutting-edge CCTV systems to monitor key areas such as entrances, hallways, and playgrounds to deter incidents and provide evidence when needed.

## REMOTE ENROLMENT

Offer students and staff a cashless payment option in cafeterias, bookstores, or vending machines. With biometrics, it makes transactions faster and more secure, eliminating the need for cash or cards.
